## Introduction

---

The national COVID-19 Nursing Admission and Shift Assessment is being updated based upon feedback from the field. This release contains updates to the VA-COVID-19 NSG ADMISSION AND SHIFT ASSESSMENT, VA-COVID-19 NSG ADMISSION SCREENING and VA-COVID-29 NSG IV INSERT AND MAINTENANCE dialogs.

The updates are as follows:

1. Removal of COVID-19 Lab Results and COVID-19 Screening display from the VA-COVID-19 NSG ADMISSION AND SHIFT ASSESSMENT and VA-COVID-19 NSG ADMISSION SCREENING. This update removes the health summary object but continues to allow staff to complete the COVID-19 screening as needed.
2. Local elements added (related to ordering consult services instructional text) to allow staff to customize or disable as appropriate to meet their local workflow. They include:
  - a. VAL-GP COVID NSG SPEECH CONSULT
  - b. VAL-COVID NSG CONSULT TEXT LANGUAGE
  - c. VAL-COVID NSG CONSULT TEXT PSYCHOSOCIAL SW
  - d. VAL-COVID NSG CONSULT TEXT PSYCHOSOCIAL CHAPLAIN
  - e. VAL-GP COVID NSG YES SOC WORK
  - f. VAL-GP COVID NSG DIETITIAN CONSULT OPTION
3. New Content has been added. The new content is added to the Adult System Assessment and includes:
  - a. Isolation
  - b. Positioning Interventions (Breathing/Oxygenation/Airway Clearance)
  - c. Oral Care
4. Substance Screening changed from a selection to a question with yes or no answer options.
5. Not Applicable option added to the Infectious Disease Screening. MRSA swab text updated to reflect local policy and Infectious Disease Coordinator updated to MDRO Prevention Coordinator.
6. Revised Mobility content.
7. Free text box added to individual breath sounds documentation section to allow users to document more than one breath sound in each lobe.
8. Cough is now a selection instead of a consistent header.

9. Integumentary content changes as follows:
  - a. Added health summary object to display previously documented pressure injury stages.
  - b. Location prompt added under incision option.
  - c. Ability to capture hospital acquired pressure injury
  - d. Ability to document two additional pressure injuries under each stage.
10. PICC and central line insertion preparedness text updated to include full body fenestrated drape and chlorhexidine
11. Urinary catheter insertion section updated to separate indwelling from intermittent/straight catheters.
12. Additional health factors added to the Positioning section, oral care, skin assessment, and urinary catheter section.

UPDATE\_2\_0\_135 contains 1 Reminder Exchange entry:

**UPDATE\_2\_0\_135 VA-NSG ADMISSION AND SHIFT ASSESSMENT UPDATE 2.0**

---

1. Sites may want to print out an inquiry to the VA-COVID-19 NSG ADMISSION AND SHIFT ASSESSMENT dialog or check for quick orders in the VA-COVID-19 NSG ADMISSION AND SHIFT ASSESSMENT dialog and have those available when installing this dialog. Below are the names of the elements you can check for quick orders:
  - OI-COVID NSG CONSULT SOC WORK
  - OI-COVID NSG CONSULT CHAPLAIN
  - OI-COVID NSG CONSULT DIETITIAN
  - OI-COVID NSG CONSULT SPEECH
  - VAL-VANOD OI WOUND CONSULT
2. Sites may want to print out an inquiry to the VA-COVID-19 NSG ADMISSION AND SHIFT ASSESSMENT dialog or check local groups and elements for local content and have the sequence items available for post install. Below are the names of the groups and elements where local content may have been added:

**Dialog Groups:**

VAL-COVID NSG LOCAL CONTENT GROUP  
VAL-COVID NSG LOCAL ALERTS HIGH RISK INFO ONLY

**Dialog Element:**

VAL-COVID NURSING RESOURCES

## Install Details

This update is being distributed as a mailman message. you will have a vista mail message with subject of **UPDATE 135**.

Installation:

=====

This update can be loaded with users on the system. Installation will take less around 45 minutes.

## Install Example

To load the mailman message. Navigate to reminder exchange in Vista, choose load mailman message, you should load the mailman message labeled UPDATE 135.

You should see a message at the top of your screen that the file successfully loaded.

Search and locate an entry titled **UPDATE\_2\_0\_135 VA-NSG ADMISSION AND SHIFT ASSESSMENT UPDATE 2.0** in reminder exchange.

Select Action: Next Screen// Q

```

You will then be returned to this screen. At the **Select Action** prompt, type **Q.**

## Post Installation

---

1. Add any quick orders to your dialogs as needed.
  - a. Map your local social work consult (or update text to reflect local process) to **OI-COVID NSG CONSULT SOC WORK** element.
  - b. Map your local Chaplain Consult order (or update text to reflect local process) to the reminder element **OI-COVID NSG CONSULT CHAPLAIN**.
  - c. Map your local Dietitian Consult (or update text to reflect local process) to the reminder element **OI-COVID NSG CONSULT DIETITIAN**.
  - d. Map your local Speech Consult (or update text to reflect local process) to the reminder element **OI-COVID NSG SPEECH CONSULT**.
  - e. Map your local Wound Care Consult (or update text to reflect local process) to the reminder element **VAL-VANOD OI WOUND CONSULT**.

2. Populate local reminder dialog groups if needed. (Optional)

**NOTE:** Adding documentation requirements is *strongly discouraged* unless content is directly related to patient safety such as alert components from the shift assessment (i.e. NEWS alert). The preference is to utilize the dialog group in the shift assessment as content added to the main dialog page must be limited to alerts/high risk information. Added content to either location must have the approval of the facility's nursing leadership (i.e. Nurse Executive Board). VA medical facilities must ensure that added content does not negatively affect system performance.

- a. If the dialog group(s) are enabled, the following items must be uploaded to the Nursing Informatics Council Share Point Site tracker:  
(The tracker can be accessed via the following link: [VA Enterprise Approved Standard Template Request](#))
  - i. Added documentation content description
  - ii. Documented facility approval as outlined in note above.
- b. The two local dialog groups are:
  - i. **VAL-COVID NSG LOCAL CONTENT GROUP**
  - ii. **VAL-COVID NSG LOCAL ALERTS HIGH RISK INFO ONLY**

3. Add any local hyperlinks to the Resource section. (Optional)
  - a. The **VAL-COVID NURSING RESOURCES** element is pre-populated with hyperlinks to the VA COVID-19 Nursing Documentation SOP, ONS COVID-19 Resources Webpage, and VHA Directive 1352, Prevention and Management of Pressure Injuries. Site may populate this element with additional local resources as appropriate.

**NOTE:** *If there are any questions or problems during the installation, please notify your local IT support to log a national help desk ticket or contact the VA Service Desk and have them submit a national ticket to:*

*Category: Affected Service*

*Affected Service: VistA – CPRS: Clinical Reminders*
